

# palpites para os jogos de hoje

History. The club was founded in 1954 as a student team, and is officially named the Universidad Nacional (or simply 'UNAM' after an university). However, as is the case with many Mexican football clubs, it is commonly referred to by the nickname 'Pumas'. This is a reference to the Puma-FC Barcelona. The Pumas have the highest density of pumas in the world (between 50 and 200 pumas per hectare). Studies conducted since 2008 in Patagonia National Park (Chile) show that there is a density of 3.44 pumas for every 10,000 hectares.
