promo zebet

<p&qt;This is the most powerful bet in all of craps. In order to play the fre e odds bet, you</p> <p> must 👍 have wagered on the pass line bet or the come bet. If the shooter has not rolled a</p> <p> craps number 👍 (2, 3, or 12) or a 7 or 11, then there must be a point number established</p> <p> (4, 5, 6, 👍 8, 9, or 10). Once the point has been established players can have access to</p> <p> the pass odds bet or 👍 come odds bet (also just known as free) Tj T* B <p>Players may wager on</p> <p> the free odds bet in multiples of their 👍 original pass/come bet amount. Most casinos</p> <p> allow multiples of 1x, 2x, or 3x. Casinos in Las Vegas for example wil I 👍 allow players</p> <p> to wager 10x, 50x and even 100x odds bets. The rule of thumb is this: The more money</p> <p&qt; 👍 you bet on the odds bet, the lower the house edge becomes i n your overall pass/come bet</p> <p> that you originally 👍 made.</p> <p>The odds bet itself pays out true odds, meaning there is a 0%</p> <p> (yes zero) house edge. There is not 👍 a single game you will ever find at the casino that</p> <p> will offer no house edge. It is as if 👍 you are betting head or tails on the flip of a</p> <p> coin. This means totally fair odds. This bet wins 👍 when the shooter rolls the point</p> <p> number before a 7.&It;/p> <p>Remember, the number 7 is the most frequently rolled number. Then € 077; 6</p> <p> and 8 are the next two frequent, followed by 9 and 5, then 4 and 10 wi th the least</p> <p&qt; 👍 frequent of the point numbers. The 6 and 8 pay out 6:5 orR\$ 6 for everyR\$5 wagered. 5</p> <p> and 9 pay 👍 out 3:2. 4 and 10 pay out 2:1 odds. Note that the se payouts are only for the</p> <p> odds bet. The 👍 original Pass/Come line bet will still be pai d 1:1 if it wins.</p> <p>I will</p> <p> explain the bet using the image below. 👍 First I made a pass line bet and the shooter</p> <p&qt; rolled a 4 on the come out roll. The number 👍 4 become the po int number (noted by the</p&qt;) Tj T* BT /F1 12 Tf 50 32 Td (<p&qt; puck that now sa

👍 to that area of the layout</p> <p> and I made a 1x multiplier free odds bet (so there are twoR\$88 chip &#) Ti T* BT /
